Age: 71 years old
Job: President of the United States

Anti-Muslim Dutch video retweeted by Trump is fake news

A video retweeted by US president Donald Trump which is said to show a Muslim beating up a Dutch boy on crutches is fake news, according to the Telegraaf and shockblog GeenStijl.

Trump retweeted three postings by British far right activist Jayda Fransen, including one said to show a Muslim migrant beats up Dutch boy on crutches. All were said to show 'sensitive material' and were flagged up by Twitter.

The Dutch video was originally posted on shockblog Dumpert in May but was removed on the request of the police. According to GeenStijl, the incident took place in Monnickendam and the 16-year-old perpetrator, who was arrested, is neither a migrant or a Muslim but an 'ordinary Dutchman'.

Fransen is the deputy leader of Britain First, founded in 2011 by former members of the far-right British National Party (BNP). She responded to Trump's retweets by proclaiming: 'Donald Trump himself has retweeted these videos and has around 44 million followers'.

Name: Mia Merri Fransz

Age: 15 years old

How long do you live in The Netherlands?
When I was 7 years old, I moved to the Netherlands, it is around 7 or 8 years that I live in the Netherlands.

Why did you moved out Hungary?
My dad and mom broke up we lived on a farm, we had a lot of animals I loved it. I remember that my mom was crying she didn't have money in that time. She had no money to buy a house or food. I was 6 years old and my sister was 17. My sister and mom worked so hard to get a little bit of money to move. My mom said we are going Holland and that need to say goodbye to my family I still remember the pain, it was such a bad memory.

Do you miss Hungary?
yes off course I miss Hungary, my familie lives ther. My grandma moved 3 years ago to Holland. But suddenly she died 3 month when she arrived in Holland.

What do you like about Holland?
In the beginning I didn't like The Netherlands at all. But I saw that my mom was so happy and after 5 years she gave birth to my little sister. I met new friends and learn the new language easy my stepfather is so kind and he gives me so much love.

Fake news
Name: Pete Hoekstra
Age: 64 years old
born in: the Netherlands (Groningen)
Job: Ambassador of the United States in the Netherlands

"pete Hoekstra statements"
In an debate Pete Hoekstra said that the Netherlands are an dangerous country with no-go-zone after his own word an reporter Wouter Zwart from the Netherlands asked him about his statement

We call that fake news'
the interview with Pete Hoekstra is confronted with his earlier statements that there are 'no-go zones' in the Netherlands and that cars and politicians are set on fire. In response he says he never said that. 'We call that: fake news. I did not say that.'

When reporter Wouter Zwart then shows the images showing how he makes his statements, he responds by saying that he has not denied it at all. 'I did not call that fake news.'

Real Fake news

American ambassador Pete Hoekstra 'back in Holland'

American ambassador Pete Hoekstra 'back in Holland'

Pete Hoekstra, the new ambassador for the US in The Hague, is back in his native country. The ultra-orthodox will feel like a strange duck.

His very first gig in front of the camera recently gave the worst suspicion. Is the new American ambassador such a modern Republican? Such an American politician who lives in his own reality and does not take it so closely with the truth? Or worse, lie about lying.

„No-go zones” in the Netherlands where Muslims make the service, no, I never said that. That is fake news”, says Pete Hoekstra (64) opposite the TV program Nieuwsuur. And when he is beaten with his own quote, he denies the harshness of the bewildered reporter that one minute earlier he had called the claim 'fake news'.

Never has a new American ambassador in the Netherlands made such a false start. In one fell swoop the image was shattered that he was a bit 'one of us'. Very unusual

In the Netherlands. The country where he comes from and which is completely different in life in many policy areas than Pete Hoekstra. An appointment that also raises questions in Washington. "Very unusual to appoint someone who disagrees with politics in his place of employment, especially when it comes to an ally," says Stewart M. Patrick, of the Council on Foreign Relations. Hoekstra also has an eye for it. He knows that many Dutch people think negatively about his president and his ideas. „I will listen a lot and it also offers opportunities, to surpass those low expectations," according to the new ambassador.

Trump misses out with a retweet Dumpert movie

Nov. 29 2017 in ABROAD

WASHINGTON - The American president Donald Trump has blundered on Wednesday by throwing a month old film from the Dutch video site Dumpert into the world. He retweeted Jayda Fransen, the leader of the extreme right-wing political party Britain First. He writes with the images: "Muslim migrant strikes Dutch boy on crutches." With the original Dumpert video of May 2017, however, that message can not be found at all. It says: Boosmakertje du jour. Crutches get cowardly hits.

GeenStijl, which published the video earlier this year on its video platform Dumpert, says that the French version of the video was indeed nonsense. GeenStijl reported that the perpetrator is "not a Muslim, let alone a migrant", but "just a Dutchman."

As a result of the images, in May, the police detained a sixteen-year-old boy from the municipality of Edam-Volendam for ill-treatment. A peer from Monnickendam was also arrested for involvement.

Trump, known for his fight against fake news, reported more messages on Wednesday with videos of violence that Jayda Fransen ascribed to Muslims

Het interview.

ik heb het interview gedaan met mijn vriendin Mia Franse, ze is geboren op 13-06-01 in Hongarije.

Waarom ben je in Nederland komen wonen?

mijn vader en moeder waren gescheiden, we hadden geen geld mijn moeder wou het beste voor ons, we zijn lopend naar Nederland gegaan. We werden op gevangen in een tehuis voor buitenlanders in 2007. De taal was erg anders en het land was super koud ik kan me alles nog herinneren hoe het was, de regen die langs mijn gezicht stroomde en mijn moeder zien hullen samen met mijn zus.

Wat vind je van Nederland?

In het begin was het erg anders, mensen zijn vaker niet meer welkom gelukkig ging ik wonen in Franeker ik zat op een leuke school ik maakte veel nieuwe vriendinnen en leerde de taal heel snel spreken. Het land op zich zelf is erg donker en plat, in Hongarije hebben we mooie gebouwen, lekker eten en een warm klimaat.

Mis je Hongarije?

Ja natuurlijk, mijn oma woonde daar. Haar laatste levens jaren is ze in Nederland komen wonen helaas heb ik haar niet zo lang meer kunnen zien ze leefde nog maar 4 maanden ze was erg ziek, ik mis de cultuur en het lekkere eten gelukkig kan mijn moeder heel goed koken en maakt ze altijd Hongaars eten op mijn verjaardag.

Gaat het nu beter vergeleken Hongarije?

Ja, ik ben gelukkig en erg blij ik heb veel lieve vriendinnen waar ik op kan rekenen. Mijn moeder heeft nog wel schulden en ik word soms nog gepest op school. ik heb hier een mooie toekomst ik wil later kraam verzorger worden. Maar het meest positieve aan Nederland is dat mijn moeder een nieuwe man heeft gevonden en met hem is getrouwd mijn moeder gelukkig zien is echt alles wat ik graag wil.

Wat is er anders aan de cultuur vergeleken met Nederland?

De begroeting van mensen was erg anders als er iemand voor de deur staat blijft hij in NL buiten de deur maar in H worden ze verwelkomt door juist binnen te komen. Mijn moeder zei altijd tegen mij op Moederdag dat ik veel bloemen moet plukken want 1 bloem moet je leggen op het kerkhof. We zeggen eerst de achternaam en daarna de voornaam, we hebben andere dagen voor feest dagen moeder dag valt bij ons op een op 6 mei (Anyák napja) maar de Nederlanders vieren het op 13 mei. We vieren even veel feestdagen alleen soms op een andere dag.

Hoe is Het klimaat in Hongarije?

het is erg warm kan ik me nog herinneren, Er valt weinig regen. Ik speelde altijd met mijn zus na school in het zwembad van mijn vader we waren namelijk boeren en hadden veel dieren om mee te spelen.

OUR OPINIONS

**I THINK
THAT...**

Naomi

: I think this project is very interesting because I often heard news on tv but the same topic was explained differently. I understand more about the fake news items and how people said things about migrants that are not true!

Sanne-Esmee : This project was very interesting. I learned so much about migrant. We have an amazing group! They are so kind and always helpful.

Ricardo: this project was interesting. I never expect that people make fake news so they can harm migrants.
