2017/2018

TRAVEL TO FRANEKER

In the academic year 2017/2018 I was given the opportunity to participate in this project through a contest in which I participated. Some time later the winners were announced and I was very pleased with the news that I won one of the 7 seats available.

During the rest of the academic year I developed several works in English and due to these I improved significantly in this discipline.

It had finally arrived on September 23, 2018, the day of the trip, I was very nervous and anxious about having to fly for the first time, and it frightened me a lot. Our flight was scheduled for 5 a.m. and I remember very well what it felt like to get on a plane, the chills in the belly, but simultaneously fascinated by what my eyes saw.

After about 2 hours we arrived at our destination, Amsterdam, a magnificent and surreal city. Afterwards we traveled to Franeker where I had the chance to meet and make new friends of different nationalities, including Kallysta, the girl who so kindly welcomed me to her house and gave me incredible moments. During the week I did a lot of activities and the one I liked the most was doing paddle in a small river with colleagues from other countries. Also made me know the city of Franeker but in an unusual way, that is, through a small outdoor presentation and traditional mills.

This opportunity has marked my life very much in a very special way. It has given me an incredible adventure, from meeting new people to challenging myself. I would repeat without hesitation.
