## THE RISKS THAT CHILDREN HAVE ON THE INTERNET

**The most of the internet news in Turkey and the world includes children-oriented sexual assault. We want to share the following.**

## LIFE STORY 1

- A 12 year-old boy liked playing online games.
- Someone he knows from a website told him to give a wonderful game for nothing. The boy said yes and gave his email address.
- That person sent him a file.

## LIFE STORY 1

- The boy loaded the file. His father's internet bank account was robbed in 2018.
- The father learned from the police that it was robbed because of the file his son uploaded.

## LIFE STORY 2

- There is a virtual chat group that students created in Ünye.
- A 13 year-old girl student met a boy. She thought he was at the same age with her. She shared his personal information with him like his home address.
- One day, she visited a family friend with her family and chatted him on her tablet.

## LIFE STORY 2

- She wrote to him they were not at home.
- They returned home and saw that their house was robbed.
- They went to the police.
- A few months later, the robbers were caught and told how they robbed the house.
- The robbers explained they met children in chat rooms and robbed their houses.
